Key Food Culture Trends Affecting UMass Community

- Modern Ad Hoc Eating
  - This is a barrier to eating sit-down meals at Dining Commons

- Quality Food = Quality Life
  - Enjoying fresh and delicious foods is dominant Health + Wellness practice.
  - *This is where distinctions of “better food” is determined and how foodservice programs are assessed*

- Participatory Culture
  - Growing desire to participate in food (closing gap between eater and provider)
  - *This is an emerging driver of student satisfaction and happiness*
Today’s Student Consumer
